

Organic Fried Chicken Website

- Presented by:
- Syed jibrael bagheri
- Wutthapanya Sirimunag
- Chanthaphat Sitthiwong

Introduction

- This project is a multi-page website for Organic Fried Chicken.
- It combines modern design, animations, and healthy eating.
- We aim to show that fast food can also be organic, eco-friendly, and fun.

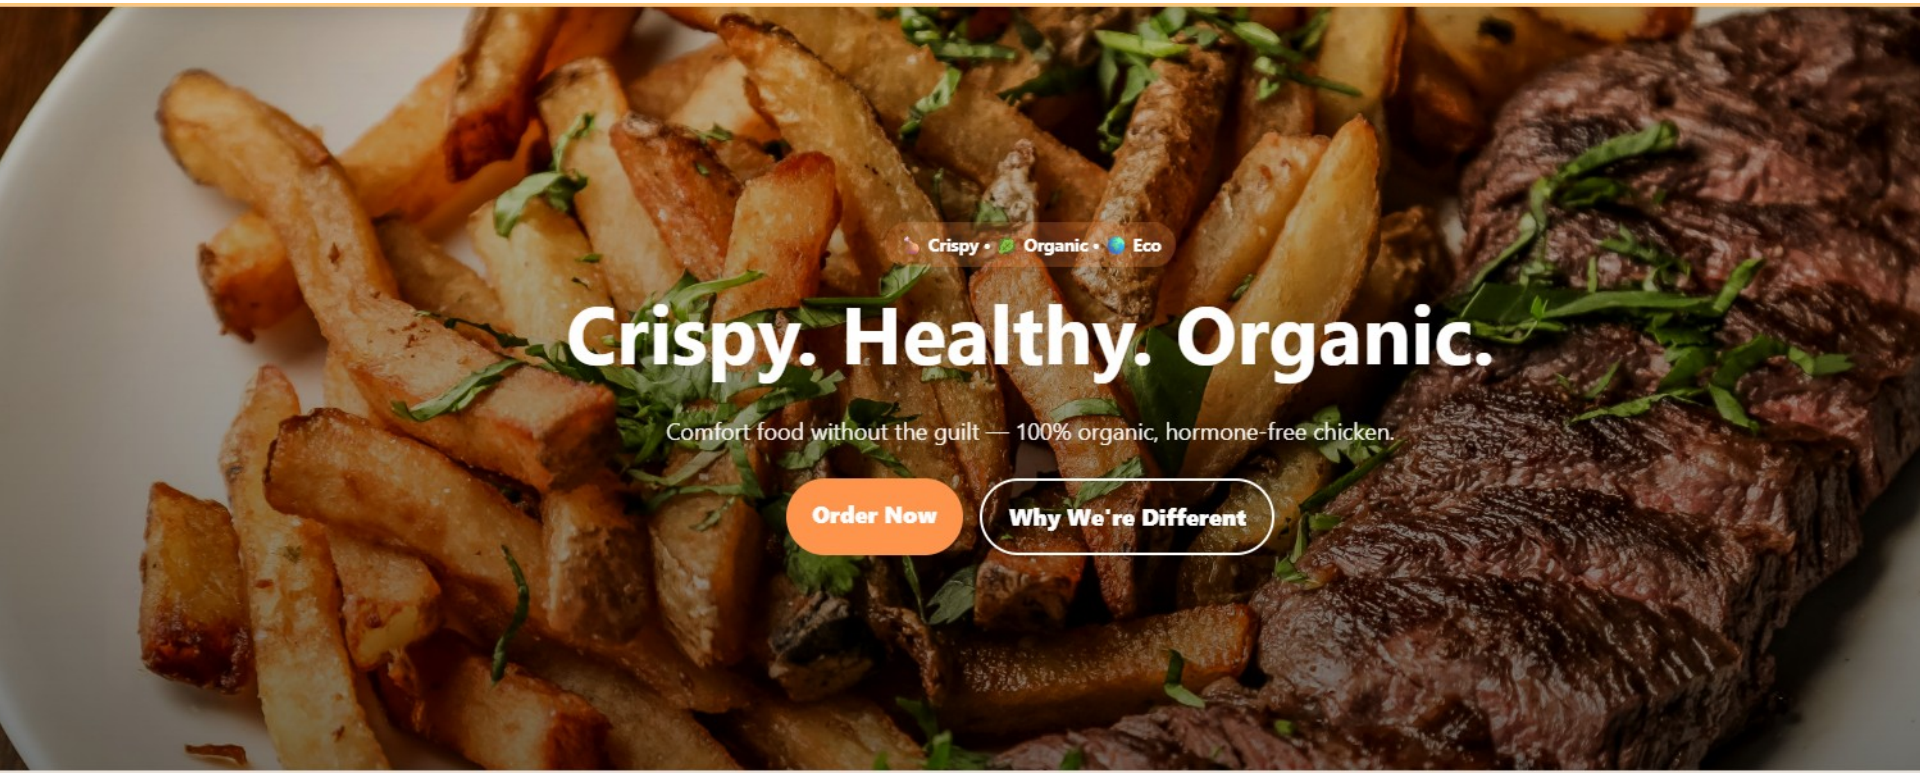

Why we Did It

- The goal was to create a visually appealing website that makes fried chicken look healthy and stylish.
- It also let me practice web design skills: HTML, CSS, JavaScript, and php, xampp.

Home Page

FEATURES:

- PARALLAX HERO SECTION
- BRAND SLOGAN: CRISPY. HEALTHY. ORGANIC.
- TESTIMONIALS
- STICKY NAVBAR WITH ANIMATIONS

Menu Page

About Us Page

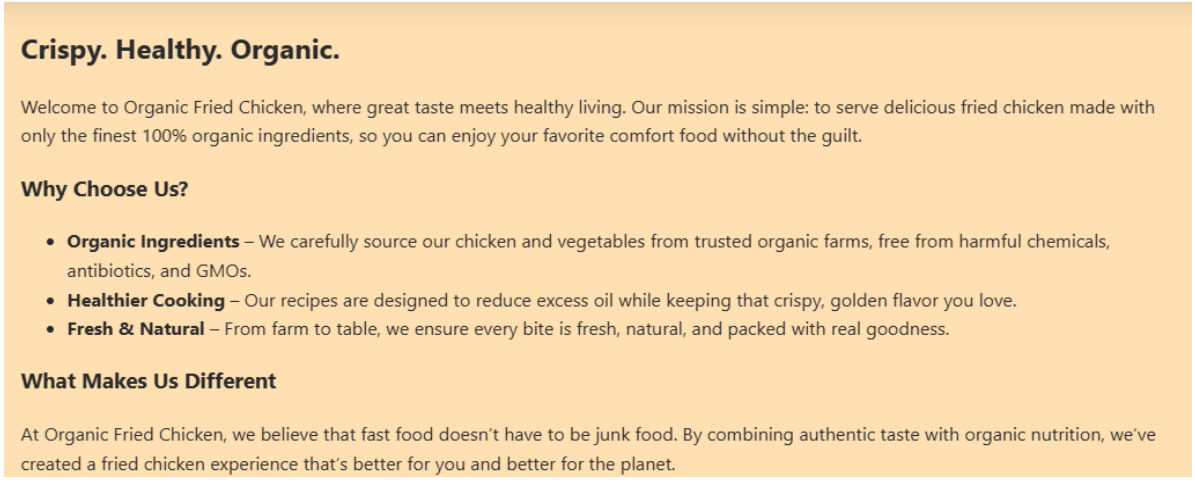

Explains:

- Mission: organic, eco-friendly food

- Story: competing with junk food

- Why it’s different: healthy + tasty

- Scroll animations for readability

Crispy. Healthy. Organic.

Welcome to Organic Fried Chicken, where great taste meets healthy living. Our mission is simple: to serve delicious fried chicken made with only the finest 100% organic ingredients, so you can enjoy your favorite comfort food without the guilt.

Why Choose Us?

- **Organic Ingredients** – We carefully source our chicken and vegetables from trusted organic farms, free from harmful chemicals, antibiotics, and GMOs.
- **Healthier Cooking** – Our recipes are designed to reduce excess oil while keeping that crispy, golden flavor you love.
- **Fresh & Natural** – From farm to table, we ensure every bite is fresh, natural, and packed with real goodness.

What Makes Us Different

At Organic Fried Chicken, we believe that fast food doesn’t have to be junk food. By combining authentic taste with organic nutrition, we’ve created a fried chicken experience that’s better for you and better for the planet.

Contact Page

FEATURES:

- CONTACT FORM WITH ANIMATED INPUT FOCUS

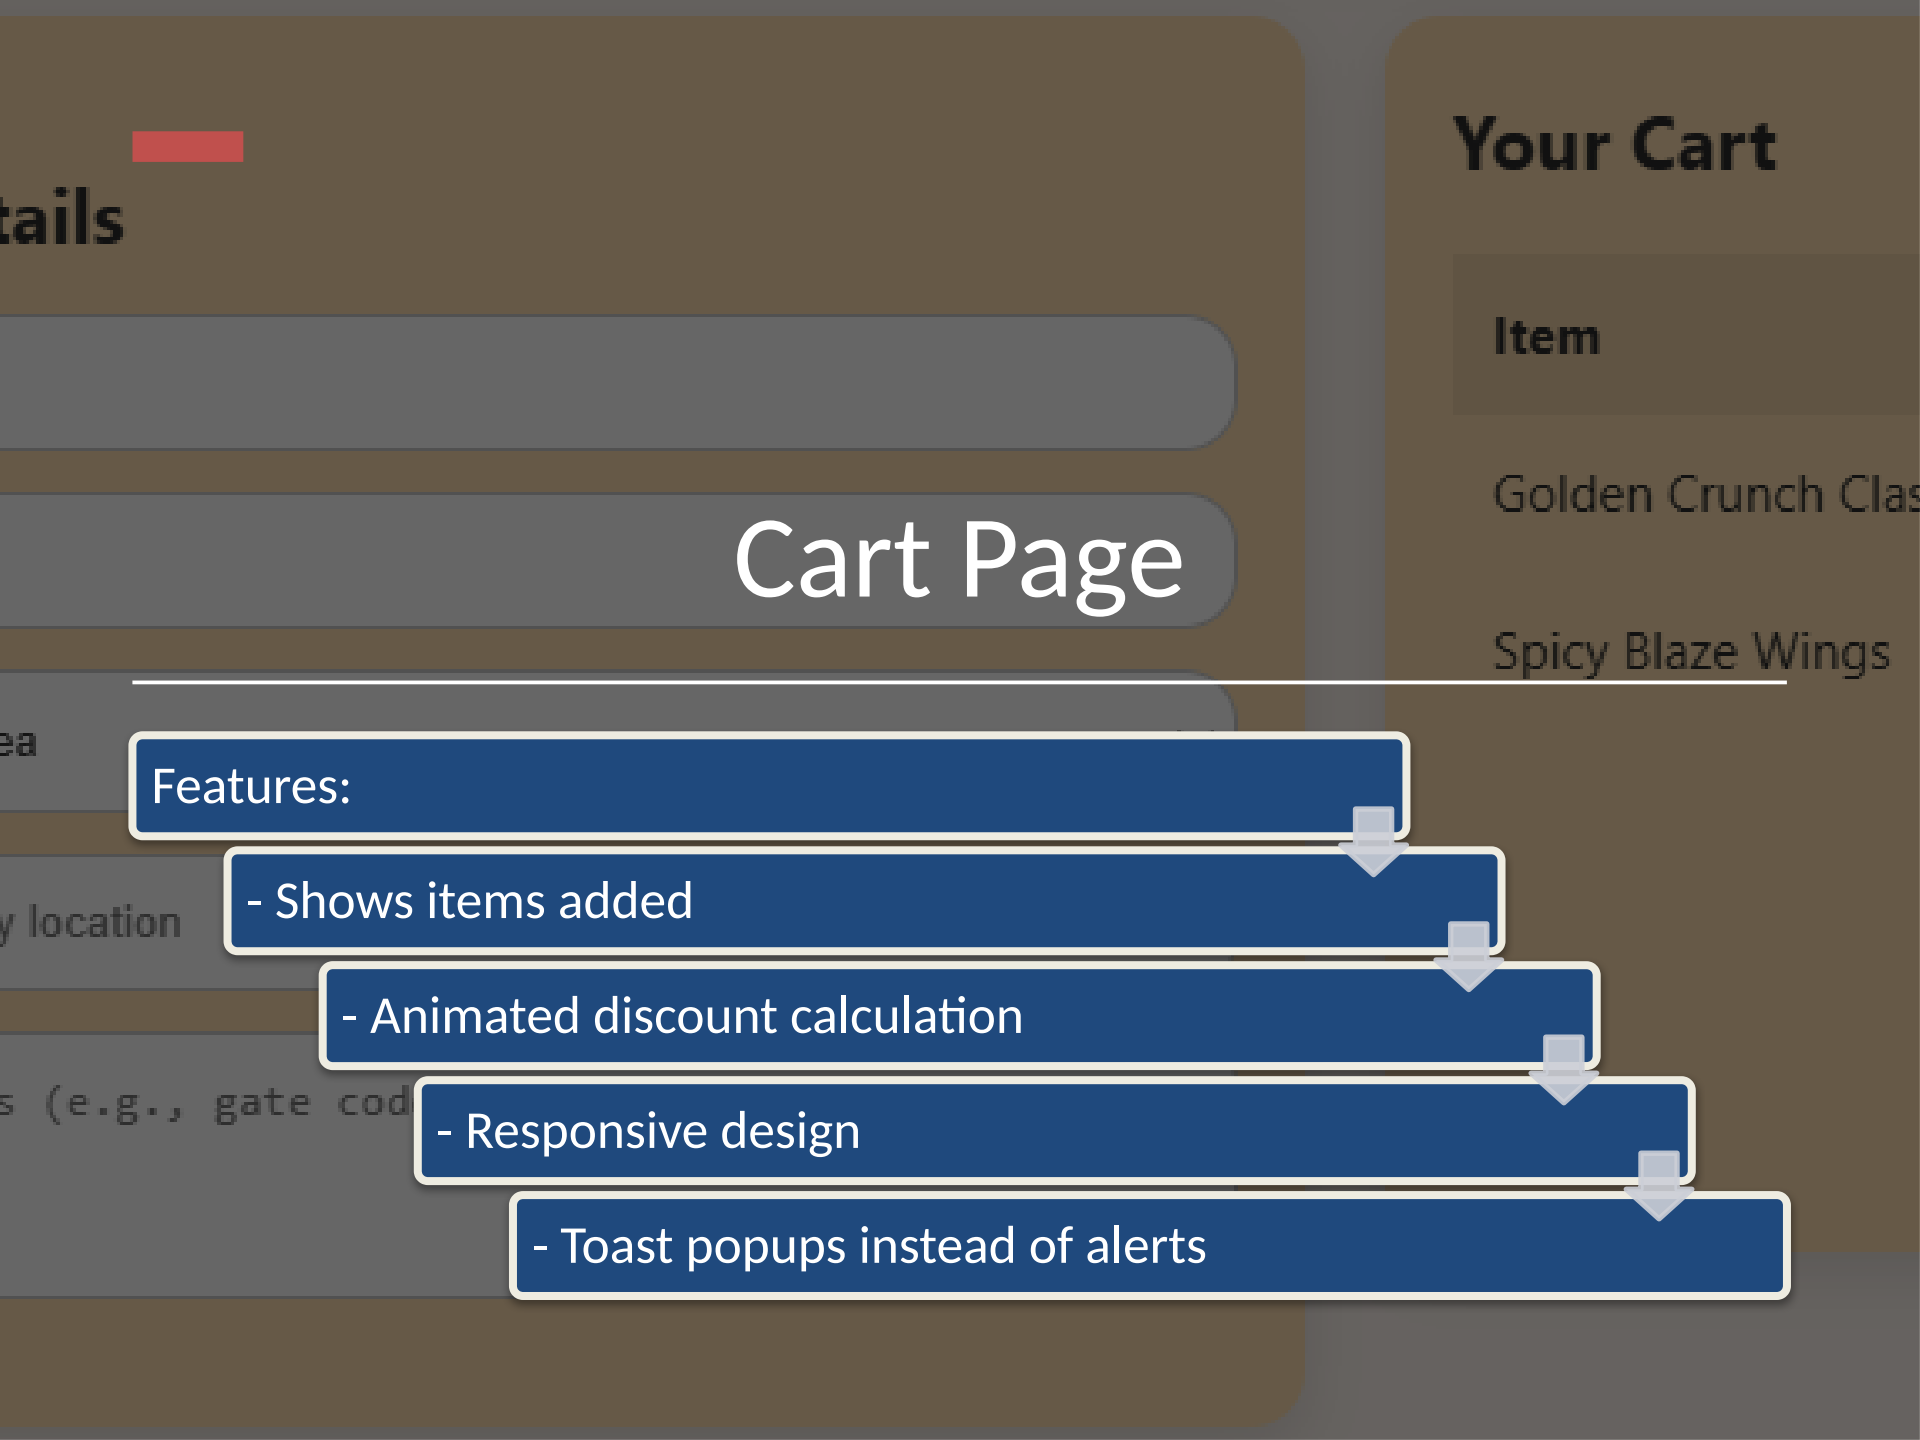

- MESSAGES STORED LOCALLY

- LOCATION AND HOURS DISPLAYED

- CLEAN ICONS FOR PHONE/EMAIL

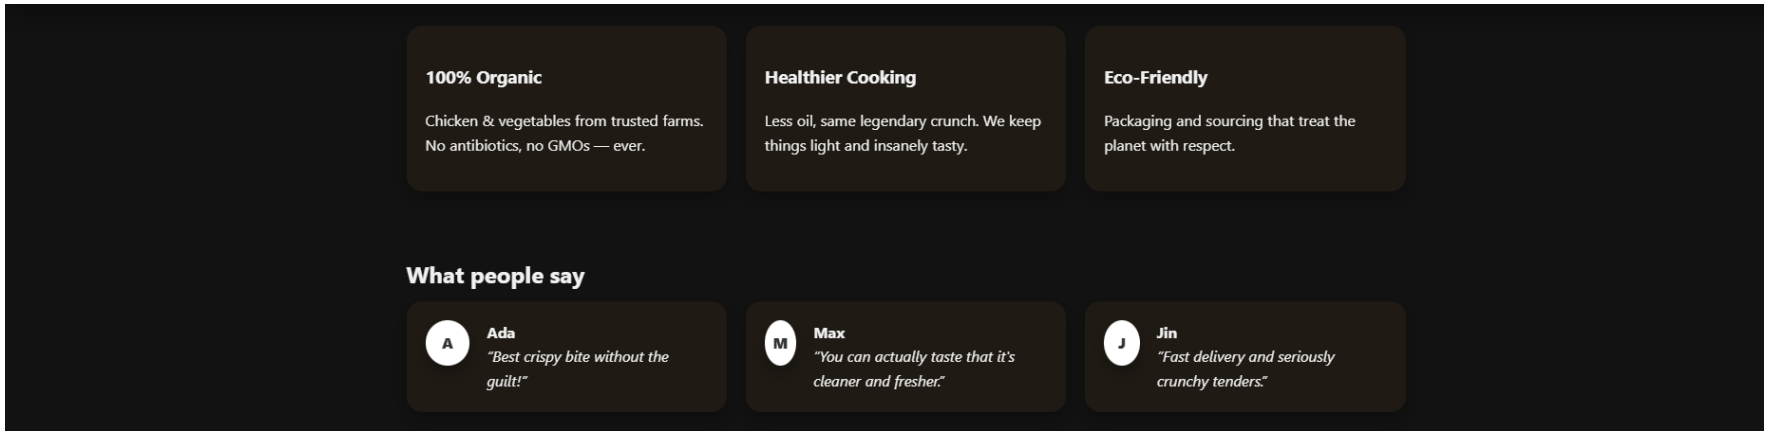

Cart Page

Features:

- Shows items added
- Animated discount calculation
- Responsive design
- Toast popups instead of alerts

Dark Mode

- Features:
- - Toggle button for dark/light
- - Saves preference in browser
- - Smooth color transitions
- - Better for accessibility

Animations

Implemented with AOS library:

- Fade-in, slide-up, zoom

- Hover scaling for buttons

- Toast popups

- Smooth navigation transitions

Design Choices

Design principles:

- Rounder edges + shadows
- Warm palette (orange, green, cream)
- Clean typography
- responsive grid layout

Future Improvements

Next steps:

- Real backend for orders

- Payment gateway

- More visuals and recipes

Conclusion

This project shows how good design + interactivity can make healthy food more fun.
